Portfolio: sujit-gajare.github.io/resume

Summary

Senior Frontend Developer with 4+ years of experience building scalable enterprise web applications using Angular. Strong expertise in micro-frontend architecture, performance optimization, and API integration. Experienced in CI/CD automation and improving application stability in production environments, integrating WCAG 2.2 standards and WAI-ARIA best practices into the development lifecycle to ensure inclusive user experiences. Hands-on exposure to React fundamentals, including functional components and hooks, with the ability to adapt quickly across frontend frameworks in Agile teams.

Experience

Frontend Development Upskilling & Independent Practice

08/2025 – Present

- Strengthening expertise in Angular, TypeScript, RxJS, and modern frontend architecture.
- Practicing component-based application development and state management concepts.
- Building sample applications and UI components using Angular, HTML, CSS, Bootstrap, and JavaScript.
- Working with REST API integration and local production builds to simulate real-world applications.
- Developing small static websites and UI layouts for practice and learning.

Infosys

Technology Analyst 03/2022 - 07/2025

- Designed and implemented enterprise-scale Angular applications using Angular, TypeScript, HTML, and SCSS.
- Built reusable, modular UI components with RxJS and REST API integration.
- Implemented lazy loading and code splitting, improving initial load time by ~30%.
- Owned end-to-end feature development, bug fixes, and production support.
- Improved unit test coverage from 55% to 85% using Jasmine and enforced SonarQube quality gates.
- Worked in Agile Scrum teams, participating in sprint planning, stand-ups, and code reviews
- Collaborated with backend teams and UI/UX designers to deliver scalable frontend solutions.

TechIMO Transformations Pvt Ltd

Team Lead and Developer 03/2021 - 03/2022

- Developed and maintained custom web applications and websites using JavaScript, HTML, CSS, Bootstrap, and jQuery.
- Built responsive and cross-browser compatible UI layouts for client-facing applications and CMS platforms such as WordPress and Shopify.
- Collaborated directly with clients to understand requirements, propose solutions, and deliver features as per business expectations.
- Led a small team of developers, conducted code reviews, and ensured timely delivery of frontend tasks.
- Participated in requirement discussions, sprint planning, and deployment activities.

Projects

My Plan Manager
03/2022 - 07/2025

My Plan Manager – Vanguard Enterprise Financial Platform

- Maintained 8 Angular micro-frontends for an enterprise financial platform.
- Designed and developed Angular-based modules with a modular architecture to support scalability and deployments.
- Integrated REST and GraphQL APIs for real-time portfolio data synchronization.
- Improved application performance through lazy loading and code splitting.
- Implemented accessible and responsive UI components following web standards.
- Supported long-term platform stability through continuous enhancements and production fixes

Skills

Frontend & Web Technologies: Angular (14+), TypeScript, JavaScript (ES6 / ECMAScript), HTML5, CSS3, SCSS, Bootstrap, Responsive Web Design, Cross-Browser Compatibility.
Application Development: Component-based UI development, Modular frontend architecture, Building reusable and testable components, Form handling and validation (Reactive and Template-driven), API-driven UI development.
API & Data Integration: RESTful APIs, JSON, HTTP services, Interceptors, Error handling.
Testing & Quality: Jasmine (Unit Testing), Unit test case writing, Code quality practices, Bug fixing and issue resolution.
Performance & Optimization: Lazy loading, Code splitting, Change detection optimization, Performance tuning.
Debugging & Diagnostics: Chrome DevTools, Network debugging, Postman, Lighthouse, Browser profiling, Memory and rendering optimization.
Accessibility & Compliance: WCAG 2.1 / 2.2 Guidelines, WAI-ARIA implementation, Accessibility audits and remediation, NVDA Screen Reader testing, axe DevTools accessibility testing, Lighthouse accessibility audits, Semantic HTML and keyboard navigation, Screen reader compatibility testing.
Tools & Workflow: Git (GitHub), Agile / Scrum, Jira, Confluence, Figma (UI design handoff), Canva.
Soft Skills: Problem-solving, logical thinking, autonomous task ownership, stakeholder communication, cross-team collaboration, mentoring.

Education

Nowrosjee Wadia College
Pune

Masters in Computer Science
07/2017 - 05/2019

Pad Dr DY Patil ACS college
Pune

Bachelors in Computer Science
07/2014 - 05/2017

St Vincents Jr College
Pune

HSC
06/2012 - 03/2014

Army Public School Kirkee
Pune

SSC
06/2010 - 03/2012

Key Achievements

Quality Assurance Improvement
Increased unit test coverage from 55% to 85% using Jasmine and enforced quality gates through SonarQube.

Performance Optimization
Improved core application performance resulting in a 30% improvement in initial page load time

Awards
Awarded multiple Rise and Insta Awards at Infosys for delivery excellence, innovation, and consistent high performance on enterprise projects.
