Portfolio: sujit-gajare.github.io/resume

About Me

Senior Frontend Developer with 4.5+ years of experience building scalable enterprise web applications using Angular. Proven expertise in micro-frontend architecture, performance optimization, and API integration. Demonstrated track record of improving application performance, increasing test coverage, and delivering production-grade solutions in Agile environments.

Experience

Technology Analyst

– Infosys Mar 2022 – Jul 2025

- Developed and maintained enterprise-scale Angular applications using TypeScript and SCSS.
- Maintained and enhanced 8 micro-frontends, ensuring scalability and seamless integration.
- Built reusable, modular UI components using RxJS and REST APIs.
- Improved initial load time by 30% through lazy loading and code splitting.
- Increased unit test coverage from 55% to 85% using Jasmine and enforced code quality via SonarQube.
- Owned end-to-end feature delivery, including development, debugging, and production support.
- Collaborated with backend teams and designers to deliver scalable, user-friendly solutions.

Team Lead and Developer

– TechIMO Transformations Pvt Ltd Mar 2021 – Mar 2022

- Delivered 15+ client websites across e-commerce, portfolio, and business domains.
- Built responsive and cross-browser compatible UI using JavaScript, HTML, CSS, Bootstrap, and jQuery.
- Led a small team of developers; conducted code reviews and ensured timely delivery.
- Worked directly with clients to gather requirements and deliver tailored solutions.
- Contributed to deployment and release cycles for production websites.

Software Development Intern

– Soft The Next Pvt Ltd Jan 2019 – Jun 2019

- Developed and enhanced modules for a desktop application using JavaFX.
- Contributed to an employee activity tracking system to monitor login time, system usage, and productivity metrics.
- Implemented features to capture user interactions such as mouse activity, application usage, and website tracking.
- Collaborated with the team to design and integrate new functionalities within an existing project (YouTrack-based workflow).
- Participated in debugging, testing, and optimizing application performance.

Education

Masters in Computer Science

Nowrosjee Wadia College

Pune

Jul 2017 – May 2019

Bachelors in Computer Science

Dr. D.Y Patil ACS College

Pune

Jul 2014 – May 2017

Projects

– My Plan Manager

- Worked on an enterprise financial platform, maintaining and enhancing 8 Angular micro-frontends for scalable portfolio management.
- Built modular UI components and integrated APIs to enable real-time data synchronization and improved performance.

– Client Web Projects

- Developed and deployed responsive websites across e-commerce, portfolio, and business domains.
- Focused on performance, UI responsiveness, and cross-browser compatibility.

Selected Projects:

- | | | |
|-------------------|------------------------|--------------------|
| • Carbon Cleaning | • Namaste Delhi | • Techimo |
| • Windaful | • Sip Wines | • Commerce Futures |
| • Croquis Cafe | • High Heels Hierarchy | |

Skills

- **Frontend & Web Technologies:** Angular (14+), TypeScript, JavaScript (ES6 / ECMAScript), HTML5, CSS3, SCSS, Bootstrap, Responsive Web Design, Cross-Browser Compatibility.
- **Application Development:** Component-based UI development, Modular frontend architecture, Building reusable and testable components, Form handling and validation (Reactive and Template-driven), API-driven UI development.
- **API & Data Integration:** RESTful APIs, JSON, HTTP services, Interceptors, Error handling.
- **Testing & Quality:** Jasmine (Unit Testing), Unit test case writing, Code quality practices, Bug fixing and issue resolution.
- **Performance & Optimization:** Lazy loading, Code splitting, Change detection optimization, Performance tuning.
- **Debugging & Diagnostics:** Chrome DevTools, Network debugging, Postman, Lighthouse, Browser profiling, Memory and rendering optimization.
- **Accessibility & Compliance:** WCAG 2.1 / 2.2 Guidelines, WAI-ARIA implementation, Accessibility audits and remediation, NVDA Screen Reader testing, axe DevTools accessibility testing, Lighthouse accessibility audits, Semantic HTML and keyboard navigation, Screen reader compatibility testing.
- **Tools & Workflow:** Git (GitHub), Agile / Scrum, Jira, Confluence, Figma (UI design handoff), Canva.
- **Soft Skills:** Problem-solving, logical thinking, autonomous task ownership, stakeholder communication, cross-team collaboration, mentoring.

Key Achievements

- **Quality Enhancement**
 - Increased unit test coverage from 55% to 85% using Jasmine and enforced quality gates through SonarQube.
- **Performance Optimization**
 - Improved core application performance resulting in a 30% improvement in initial page load time
- **Awards**
 - Awarded multiple Rise and Insta Awards at Infosys for delivery excellence, innovation, and consistent high performance on enterprise projects.
